Objective

Detail-oriented QA Intern with hands-on experience in manual testing, functional testing, regression testing, API validation, and end-to-end workflow testing across assessment, proctoring, interview, and payment platforms. Experienced in executing high-volume test cases, identifying and tracking defects, validating production releases, and collaborating in Agile environments. Possesses strong technical understanding of APIs, databases, and web technologies, enabling effective validation of complex application workflows.

Experience

- **Quality Assurance Engineer Intern | Talview** Jan 2026 – Present
  - Performed manual, functional, regression, smoke, and sanity testing for assessment, proctoring, interview, and payment modules.
  - Executed 300+ test cases weekly across multiple workflows and release cycles in production-oriented environments.
  - Identified and reported approximately 25–27 defects weekly through detailed bug documentation and validation workflows.
  - Conducted API testing using Postman and Bruno to validate backend responses, request payloads, and workflow integrations.
  - Reproduced reported issues, validated bug fixes, and performed regression testing to ensure release stability.
  - Participated in Agile activities including standups, weekly testing discussions, and release validation processes.
  - Validated end-to-end candidate and interviewer workflows across multiple assessment configurations and platform modules.
  - Managed test cases and QA activities using TestRail and Tuskr for structured test execution and tracking.
  - Collaborated with developers and QA team members to analyze issues and improve platform quality and usability.
- **Super Proctor | Talview** Aug 2025 - Dec 2025
  - Monitored live assessment and interview workflows to ensure platform compliance and operational continuity.
  - Assisted candidates in resolving real-time platform and connectivity issues during assessments and interviews.
  - Identified, escalated, and documented platform-related issues impacting candidate experience and assessment flow.
  - Coordinated with internal teams to ensure smooth execution of online assessments and proctoring activities.
  - Gained hands-on exposure to assessment lifecycle workflows, user behavior patterns, and platform operations.
  - Supported large-scale assessment operations while maintaining process accuracy and adherence to platform guidelines

Education

Sathyabama University , BSc in Computer Science 2022 – 2025

- GPA: 7.12 / 10.0

Higher Secondary Education 2021 – 2022

- Kalaimagal Higher Secondary School, Vadamadurai

Secondary School Leaving Certificate 2018 – 2019

- John Paul Higher Secondary School, Dindigul

Technical Skills

Testing:

- Manual Testing
- Functional Testing
- Regression Testing
- Smoke Testing
- Sanity Testing
- API Testing
- End-to-End Testing
- Release Validation

Tools and Platforms

- Postman
- Bruno
- Linear
- TestRail
- Tuskr
- GitHub
- VS Code

Technical Knowledge

- REST APIs
- Python
- SQL
- Html
- CSS
- JavaScript

Methodologies

- Agile Scrum
- Defect Lifecycle
- SDLC
- STLC

Projects

- **Garbage Detection System (Academic Project)**
  - Built an AI-powered system to detect and report vehicle littering in real-time using object detection, OCR, and face recognition
  - Designed modular architecture with APIs suitable for cloud deployment.
  - Integrated SMS notification system using Twilio.
  - Gained practical skills in AI integration, database design, and scalable API development.
- **Resume Builder with AI and Career Suggestions (Mini Project)**
  - Created a resume-building platform integrated with AI-based suggestions for career paths.
  - Applied web development skills with C# backend and frontend integration.
  - Focused on scalability, modular design, and preparing solution for cloud hosting.

Certifications

- **Python** – HackerRank
- **Data Science** – Infosys Springboard
- **Natural Language Processing** – Infosys Springboard

Participation & Activities

- IEEE Member
- Member of Hack Sist Club
- Organizer of webinars and technical events
- Participated in college-level design and outreach activities

Professional Strengths

- Ranked among top performers in coding challenges on HackerRank
- Adaptable and quick learner, especially in emerging technologies
- Calm and composed under pressure with strong problem-solving skills
- Collaborative team player with positive work ethic
